BIOCHEMISTRY

Volume 48, Numbers 1-12, 1983

(A translation of Biokhimiya)

Volume 48, Number 1, Part 1 January, 1983

	Engl./Russ.	
Reverse Transport of Electrons in Mitochondria of the Yeast *Endomyces magnusii* Cultured on Sucrose — R. A. Zvyagil'skaya, V. A. Zelenshchikova, and D. Sh. Burbaev.	1	3
Effects of Anions on the ATPase Activity of Submitochondrial Particles — A. T. Ivashchenko and K. R. Uteulin	8	11
Adaptation of the Energy Metabolism in the Rabbit Liver and Muscles to Hypobaric Hypoxia — E. A. Kosenko, Yu. G. Kaminskii, and M. N. Kondrashova	13	17
Activation of Chromatin and Proteolysis of Histones in the Presence of Suppression of Protein Synthesis in Liver Cells — P. Ya. Boikov, L. I. Sidorenko, N. A. Shevchenko, G. P. Chirkov, and I. N. Todorov.	19	23
Influence of Photooxidation on the Biological Properties of Botulinic Neurotoxin Type A — V. A. Kolesnikova, I. V. Shibaeva, and K. K. Ivanov.	29	33
Effects of Acid α-Glucosidase of Animal Tissues on Oligosaccharides of Various Structures — A. L. Minakova and M. E. Preobrazhenskaya . . .	36	40
Redox-Dependent Protonation of the Hemes of Cytochrome Oxidase in Beef Heart Submitochondrial Particles — V. Yu. Artsatbanov, V. A. Grigor'ev, and A. A. Konstantinov	41	46
Properties of Satellite DNA of Three Species of Plants of the Subtribe Citrinae — G. P. Bragvadze.	48	54
Some Properties of Two Forms of α-Glucosidase of *Saccharomyces cerevisiae* II — R. P. Krakenaite and A. A. Glemzha.	55	62
A High-Molecular-Weight Proteolysis-Resistant Actin Fragment — V. B. Mantulenko, S. Yu. Khaitlina, and N. S. Shelud'ko	61	69
Self-Assembly of the Membrane Microsomal Monooxygenase System in Gel Filtration through Sephadex LH-20 — V. M. Mishin, A. Yu. Grishanova, N. E. Polyakova, V. N. Solov'ev, and V. V. Lyakhovich	67	75

Volume 48, Number 1, Part 2 January, 1983

Mechanism of Action and Specificity of Exo-β-1,3-glucanase from the Mollusk *Eulota maakii* — N. I. Shirokova and L. A. Elyakova. .	75	83
Isolation and Properties of Endodeoxyribonuclease from Loach Eggs — I. B. Bronshtein, G. K. Shakhbazyan, and K. A. Kafiani	83	92
Investigation of the Immersion of F_1-ATPase of *Micrococcus lysodeikticus* in the Hydrophobic Phase of the Membrane Using 2,4,6-Trinitrobenzenesulfonate and the Methyl Ester of 12-O-(Azidoformyl)stearic Acid — E. I. Mileikovskaya, T. V. Sheiko, G. V. Tikhonova, D. N. Ostrovskii, and I. A. Kozlov. . .	95	104
Activation of Glucose Isomerase by Magnesium and Cobalt Ions — A. V. Ananichev, I. V. Ulezlo, A. M. Egorov, A. A. Rezchikov, and A. M. Bezborodov	101	111
Action of Specific Inhibitors on Multiple Forms of Beef Brain Monoamine Oxidase — T. A. Moskvitina, N. E. Kuchina, and V. Z. Gorkin.	108	119

Mechanism of the Formation of Complexes between Monomer Fibrin and an Inhibitor of Its Polymerization — Fragment D — V. A. Belitser, T. M. Pozdnyakova, É. V. Vovk, and V. N. Rybachuk. 113 125
Investigation of the Properties of the Plasminogen Activator from the Blood Plasma of Persons Experiencing Sudden Death — O. A. Markova 119 132
Damages to DNA and Chromatin Induced by Thiophosphamide — T. G. S'yakste, N. I. S'yakste, and A. V. Likhtenshtein. 124 137
Dependence of the Ganglioside Composition of Leukemic Lymphocytes on the Density of the Cell Population — É. V. Dyatlovitskaya, E. V. Sinitsyna, N. V. Nikolaeva, and L. D. Bergel'son 129 143
Purification of Adenylate Cyclase from the Phototrophic Bacterium *Rhodospirillum rubrum* — Sh. A. Shukurov, E. P. Fedenko, and N. G. Doman. 134 149
Modification of the Enzyme System of Ca^{2+} Transport in the Sarcoplasmic Reticulum in Peroxide Oxidation of Lipids. Change in the Chemical Composition and Ultrastructural Organization of the Membranes — V. E. Kagan, Yu. V. Arkhipenko, and Yu. P. Kozlov. 142 158

Volume 48, Number 2, Part 1 February, 1983

Age Changes in Metabolism of Nuclear Precursors of mRNA in Rat Cerebral Cortex and Liver Cells — P. Z. Khasigov, V. F. Glazkov, A. A. Del'vig, D. A. Kuznetsov, and A. Ya. Nikolaev. 151 179
Reverse Electron Transport in Mitochondria of *Endomyces magnusii* Grown on Glycerol — V. A. Zelenshchikova, D. Sh. Burbaev, and R. A. Zvyagil'skaya. 158 186
Modification of Arginine Residues of Glyceraldehyde-3-phosphate Dehydrogenase from Rat and Rabbit Skeletal Muscles — R. A. Asriyants, N. V. Benkevich, and N. K. Nagradova. 164 193
Formation of Additional Chromosome-Membrane Contacts during Reparative DNA Synthesis in Bacterial Cells — V. G. Bezlepkin, Yu. Yu. Malinovskii, and A. I. Gaziev. 172 201
Functional Activity of Components of Hepatocyte Protein-Synthesizing Apparatus during Restoration of Protein Biosynthesis Inhibited by Cycloheximide — S. T. Sizova, Yu. I. Mitrokhin, M. N. Gutnikova, and I. N. Todorov 181 211
Cytochrome c Accelerates Binding of Cyanide to Oxidized Cytochrome c Oxidase — I. M. Andreev, O. L. Myakotina, E. Yu. Popova, and A. A. Konstantinov 188 219
Processivity and Some Properties of DNA Polymerase α from Sea Urchin Embryos — L. L. Terent'ev, N. A. Terent'eva, and V. A. Rasskazov . . 193 224
Antigenic Properties of Some Rat Heart and Liver Chromosomal Proteins upon Adaptation to Hypoxia — I. V. Muzurov and N. A. Fedorova. . . . 199 230
Interrelationships between Adenine Nucleotide System and Oxidative Phosphorylation in Rat Liver during Starvation — A. V. Panov, V. A. Vavilin, V. N. Solov'ev, and V. V. Lyakhovich. 204 235
Properties of ATP-Dependent Ca^{2+} Transport System in Plasma Membrane Fraction of Myometrial Cells — S. A. Kosterin, N. F. Bratkova, M. D. Kurskii, and V. P. Zimina. 212 244
External Pathway of NADH Oxidation and Viscosity of Mitochondrial Membranes — I. V. Zhigacheva, A. I. Tsukerman, and É. Ya. Kaplan . . 221 254
Direction of Fatty Acid and Glycerolipid Biosynthesis in Isolated Chloroplasts from Developing Pea Leaves — A. N. Grechkin 226 259

Volume 48, Number 2, Part 2 February, 1983

Differences in Composition of Nuclear and Chromatin Phospholipids during Proliferation of Rat Liver Cells after Partial Hepatectomy — A. V. Alesenko and É. A. Pantaz. 231 263
Fractional Composition and Nature of Glycosaminoglycans in Animal Tissue Proteoglycans with the Properties of Chalones — V. I. Rykova, N. P. Eliseeva, N. F. Lomakina, and R. I. Salganik 236 269

Engl./Russ.

Reactivation of Cyanide-Resistant Respiration of Yeast Mitochondria by Nucleotides and Azolectin — A. G. Medentsev and V. K. Akimenko. . . 242 275
Changes in Uracil-DNA Glycosylase Activity in Rat Liver after Injection of the Hepatocarcinogen 4-Dimethylaminoazobenzene — O. N. Aprelikova and N. D. Medvedeva 249 283
Affinity Modification of Gene 5 Protein of Bacteriophage f1 — M. N. Vinogradova, V. L. Drutsa, M. G. Ivanovskaya, E. S. Gromova, and Z. A. Shabarova 252 286
Investigation of Stability and Use of Immobilized High-Molecular-Weight RNAs for Hybridization — Yu. P. Zerov, A. V. Aver'yanov, K. A. Kozlov, and L. S. Chesnokova 257 292
Kinetic Properties and Functional Role of Histidine Decarboxylase Domains of *Micrococcus* SP. N. — L. G. Rashkovetskii and V. N. Prozorovskii . . 261 297
Study of Collagen Biosynthesis during Early Embryogenesis of the Beluga Sturgeon — A. A. Preobrazhenskii and A. V. Glinka. 268 305
Effect of Some Piperidine and Piperazine Derivatives and Related Compounds on Deamination of Serotonin, Tyramine, and Benzylamine by Porcine Liver Mitochondrial Monoamine Oxidase — A. A. Prikulis, B. A. Grinberga, V. Ya. Grinshtein, and G. R. Strelka. 275 313
Modification of Enzymatic System for Ca^{2+} Transport in Sarcoplasmic Reticulum upon Lipid Peroxidation. Molecular Mechanisms of Increase in Permeability of Membrane for Ca^{2+} — V. E. Kagan, Yu. V. Arkhipenko, V. B. Ritov, and Yu. P. Kozlov 281 320
Influence of Lipid Peroxidation on Structure of Serum Lipoproteins — V. E. Formazyuk, Yu. G. Osis, A. I. Deev, V. Z. Lankin, Yu. A. Vladimirov, and A. M. Vikhert 291 331
Structural and Functional Nonidentity of Subunits of Rabbit Skeletal Muscle Creatine Kinase — G. A. Nevinskii, V. N. Ankilova, C. N. Lavrik, Z. S. Mkrtchyan, L. S. Nersesova, and Zh. I. Akopyan 299 339

Volume 48, Number 3, Part 1 March, 1983

Selective DNA Synthesis in the Rat Brain Induced by Learning — V. V. Ashapkin, G. A. Romanov, N. A. Tushmalova, and B. F. Vanyushin 309 355
Activity of the Enzymes Recognizing Thermal Damages to DNA (Apurine Endonuclease and Uracil-DNA Glycosylase) in Psychro-, Meso-, and Thermophilic Bacteria — O. A. Andreev, O. K. Kaboev, and N. V. Tomilin 316 363
Isoenzymes of Endoglucanase in Cellulase Complexes: Different Affinity for Cellulose and Different Role in the Hydrolysis of an Insoluble Substrate — M. L. Rabinovich, V. M. Chernoglazov, and A. A. Klesov 321 369
Use of the Spin Label Method to Study the State of the Active Site and Microsurroundings of α-Chymotrypsin, Solubilized in Octane, Using Surfactant Aerosol OT — O. V. Belonogova, G. I. Likhtenshtein, A. V. Levashov, Yu. L. Khmel'nitskii, N. L. Klyachko, and K. Martinek 329 379
Relationship between the Rate of ATP-Consuming Processes and the ATP Concentration in Intact Sheep Erythrocytes — A. I. Ataullakhanov, F. I. Ataullakhanov, V. M. Vitvitskii, A. M. Zhabotinskii, and A. V. Pichugin 336 387
Mechanism of the Interaction of Pyridoxal-5-phosphate and Acetaldehyde with Apo-Hemoglobin — I. I. Stepuro and N. V. Mityanok 340 392
Effects of Actin on the Catalytic Properties of Glyceraldehyde-3-phosphate Dehydrogenase — T. B. Eronina, V. I. Muronets, N. K. Nagradova, M. V. Ostrovskaya, and B. F. Poglazov 348 401
Multiple Molecular Forms of Glutamine Synthetase in *Rhizobium lupini* Bacteroids — Z. G. Evstigneeva, M. V. Kaush, K. B. Aseeva, and V. L. Kretovich 351 405

Production and Certain Peculiarities of the Submitochondrial Particles from *Tenebrio molitor* — E. I. Shabarchin, N. A. Panasenko, V. A. Kheinman, A. A. Shapovalov, and Yu. Sh. Moshkovskii 355 409
The Role of Lipids in the Functioning of Ca^{2+}-Dependent ATPase of the Sarcoplasmic Reticulum — V. B. Ritov and M. K. Murzakhmetova . . 360 415
Localization of the RNase Activity When It Is Incorporated into Liposomes — N. D. Yanopol'skaya, A. M. Tongur, and G. A. Deborin. . . 371 428
Modification of the Enzyme of Ca^{2+} Transport in the Sarcoplasmic Reticulum in Lipid Peroxidation. Molecular Mechanisms Underlying the Alteration of Ca-ATPase Activity — Yu. V. Arkhipenko, V. E. Kagan, and Yu. P. Kozlov 376 433

Volume 48, Number 3, Part 2 March, 1983

Encephalomyocarditis Virus Protease: Purification and Role of the SH Groups in Processing of the Precursor of Structural Proteins — A. E. Gorbalenya and Yu. V. Svitkin 385 442
Reconstitution of a Cholesterol-Hydroxylating System on the Basis of Immobilized Adrenodoxin — V. G. Radyuk, V. M. Shkumatov, V. L. Chashchin, and A. A. Akhrem 396 454
Water-Soluble Cytochrome b_{559} from Leaves of Higher Plants — V. K. Gins and E. N. Mukhin 405 464
Some Kinetic Characteristics of Chloroplast Adenylate Kinase — N. Ya. Kholodenko, I. M. Kartashov, and A. D. Makarov 411 471
Nuclear Thymidine Kinase and Nucleoside Phosphotransferase from Normal and Proliferating Rat Liver Tissues — B. Ya. Khatsernova and S. A. Silaeva 416 477
Effects of Free Fatty Acids on the Transport of Ca^{2+} by Fragments of the Frog Sarcoplasmic Reticulum — V. I. Vashchenko, O. V. Esyrev, Zh. A. Nusupova, Sh. S. Sarsenova, V. K. Turmukhambetova, and Z. Sh. Smagulova 422 483
Use of $^{14}Co_2$ and [^{14}C]Sucrose for Deltofolin Biosynthesis in Leaves of *Dioscorea deltoidea* — V. A. Paseshnichenko, A. R. Guseva, and I. S. Vasil'eva 426 487
Activation of Cytochrome c Oxidase in Yeast Mitochondria by Postribosomal Supernatant — S. L. Kal'nov, A. V. Galkin, I. E. Kovaleva, and V. N. Luzikov 430 492
Structuro-Functional Organization of Corticotropin (ACTH): Comparison of the Structure and Biological Properties of ACTH 17-24 and Angiotensin II — I. V. Syskov, G. G. Kublis, A. A. Skuin'sh, B. S. Kataev, E. A. Porunkevich, G. A. Afanas'eva, Z. P. Pudane, P. Ya. Romanovskii, and G. I. Chipens 436 498
Investigation of the NAD-Glycohydrolase Activity of Staphylococcal Enterotoxins — E. G. Sysueva, Yu. V. Ezepchuk, and A. N. Noskov 440 502
Initial Conversions of the Main Storage Protein in Germinating Buckwheat Seeds — M. A. Belozerskii and Ya. E. Dunaevskii 445 508
Metabolism of Poly(A)-Containing Messenger RNAs by Polyribosomes of Rat Liver Cells during Ontogenesis — P. Z. Khasigov and A. Ya. Nikolaev 448 512
Isolation and Certain Molecular Properties of Cytochrome P-450 from Alkane-Oxidizing Yeasts *Lodderomyces elongisporus* — W. H. Schunck, P. Riege, H. G. Müller, and W. Scheler 453 518

Volume 48, Number 4, Part 1 April, 1983

Modification of Arginine Residues of Glyceraldehyde-3-phosphate Dehydrogenase from Baker's Yeast—R. A. Asriyants, O. Yu. Rychkova, and N. K. Nagradova 463 531
Some Physicochemical Parameters of Reactions Catalyzed by Glycerol Dehydratase —A. A. Poznanskaya and T. L. Korsova 469 539
Immunochemical Analysis of Intranuclear Distribution of Immunogenic Nonhistone Proteins—O. S. Melkonyan, V. M. Ermekova, and S. R. Umanskii 473 544

Binding of Substrates to Baker's Yeast Transketolase. Function of the Anionic Group of the Donor Substrate—R. A. Usmanov and G. A. Kochetov 478 550
Active Ca^{2+} Transport and Metabolism of Phosphorus Compounds in Rat Enterocytes —S. V. Sokolova, V. B. Spirichev, and N. V. Adrianov 485 559
Pyrocatechol Dioxygenases in Pseudomonas aeruginosa 2x: Detection of Isofunctional Proteins—L. A. Golovleva, I. A. Kataeva, V. Ya. Il'chenko, and R. Kh. Belyaeva 490 565
Proteinase from Buckwheat Seeds Hydrolyzing the Main Reserve Protein of These Seeds —Ya. E. Dunaevskii, M. A. Belozerskii, and E. N. Élpidina 496 572
Properties of New Variant of Glucose-6-phosphate Dehydrogenase (Regar Variant). Glucose Metabolism in Erythrocytes Containing Abnormal Enzyme —N. V. Ermakov, N. B. Chernyak, and Yu. N. Tokarev 500 577
Uncoupling of Template Biosyntheses in Rat Liver Cells by Starvation and Cycloheximide —P. Ya. Boikov, N. A. Shevchenko, G. P. Chirkov, and L. I. Sidorenko 506 584
Possible Role of α-Subfraction of Histone H1 in Organization of Structural Element of Chromatin Exposed by Ca,Mg-Endonuclease — A. A. Myul'berg, L. I. Tishchenko, N. V. Demina, and V. L. Alekseev 513 592
Neutral Glycosphingolipids from Mouse Liver and Ascites Hepatoma 22a —G. I. Shaposhnikova, N. V. Prokazova, Yu. V. Volgin, and L. D. Bergel'son 520 601
Role of Fructose-1-phosphate in Regulation of Activity of Enzymes of Phosphoprotein Metabolism—G. K. Parsadanyan, V. Dombradi, P. Gergey, and G. Bot 524 606
Role of Functional Adaptation of tRNA in Regulation of Biosynthesis of Specific Proteins —A. V. El'skaya, G. V. Turkovskaya, O.T. Rozhko, and N. F. Starodub 528 611

Volume 48, Number 4, Part 2 April, 1983

Assay and Study of Some Properties of NADH Dehydrogenase Isolated from *Micrococcus lysodeikticus* Membranes — I. G. Zhukova, T. A. Valueva, G. K. Degteva, A. S. Kaprel'yants, T. V. Nosova, N. F. Sepetov, and D. N. Ostrovskii 533 617
Modification of Enzymatic Ca^{2+} Transporting System in Sarcoplasmic Reticulum during Lipid Peroxidation. Changes in Molecular Organization of Membrane Lipids — N. K. Klaan, O. A. Azizova, L. A. Sibel'dina, Yu. V. Arkhipenko, and V. E. Kagan 541 626
Functional Role of Sulfhydryl Groups of Thiamine Pyrophosphokinase — I. M. Artsukevich, A. I. Voskoboev, and Yu. M. Ostrovskii 548 634
Synthesis of S-Adenosylmethionine and S-Adenosylhomocysteine in Rat Liver during E-Hypovitaminosis — A. A. Kruglikova, G. V. Donchenko, L. P. Shvachko, and A. V. Karpov 553 639
Mechanisms of Conformational Adaptation of Albumin to Ligands of Differing Chemical Structure — A. I. Luik, B. S. Braver-Chernobul'skaya, and V. D. Luk'yanchuk 559 645
Characteristics of Thymocyte Mitochondria — G. I. Konoshenko and E. N. Mokhova 565 652
Study of Interaction of N,N,N',N'-Tetramethyl-p-phenylenediamine with Chloroplast Membranes under the Action of Light — A. A. Bulychev, G. A. Kurella, and E. P. Lukashev 571 658
Regulation of Calcium Transport in Erythrocytes by Calmodulin and EGTA — S. N. Orlov, N. I. Pokudin, and G. G. Ryazhskii 576 664
Satellite DNAs of Citrus Plants — G. P. Bragvadze and T. G. Beridze 585 673
Polymorphism of Neutral α-Glucosidase from Human Kidneys — N. A. Ushakova, E. V. Kazlas, and I. S. Lukomskaya. 589 678
Effect of Ubiquinone Analog 2,5-Dibromo-3-methyl-6-isopropyl-p-benzoquinone on Light-Dependent Generation of Membrane Potential in *Rhodospirillum rubrum* Chromatophores — A. V. Oleskin and V. D. Samuilov 595 684
Study of Interaction of Antibodies Immobilized on Silochrome with Antigen—Enzyme Conjugate — N. N. Popova, E. M. Gavrilova, V. S. Parbuzin, B. B. Dzantiev, A. I. Gromov, and A. M. Egorov 601 691

Volume 48, Number 5, Part 1 May, 1983

Subcellular and Submitochondrial Localization of Inorganic Pyrophosphatase in the Mammalian Heart and Liver – E. B. Kostenko, I. N. Smirnova, A. A. Baikov, and S. M. Avaeva 609 707
Mechanism of Nicotinic Acid Inhibition of the Reaction Catalyzed by Acetyl-CoA Carboxylase – A. I. Fomenko, S. V. Pozharun, S. I. Shushevich, and A. G. Khalmuradov 614 714
Presteady-State Kinetics of the Hydrolysis of ATP by Chloroplast CF_1-ATPase – A. N. Mal'yan and O. I. Vitseva 618 718
Influence of Endogenous Phosphate on Electron Transport in Chloroplasts – N. V. Goncharova and M. G. Gol'dfel'd 623 725
Soluble cAMP-Dependent Protein Kinases of Rabbit Myometrium – L. G. Babich, T. P. Kondratyuk, and M. D. Kurskii 630 732
Properties of Oospora lactis Lipases – K. Davranov, Z. R. Akhmedova, M. I. Rizaeva, M. I. Alimdzhanova, and M. M. Rakhimov 636 739
Chemical Modification of Lysine Residues by Bacterial Formate Dehydrogenase – V. O. Popov, V. I. Tishkov, V. V. Dayanicheko, and A. M. Egorov 643 747
Purification and Physicochemical Properties of the Sex Steroid-Binding Globulin of Human Blood Plasma – O. A. Strel'chenok, L. I. Survilo, G. Z. Tsapelik, and O. V. Sviridov 651 756
Effects of Clofibrate on the Enzyme Activity of the Epithelium of the Rat Small Intestine – V. D. Antonenkov 657 763
Identification of Histone mRNAs and Isolation of a DNA Fraction Enriched with Physarum polycephalum Histone Genes – V. L. Bukhman 661 768
Function of the Arginine Residue of the Active Site of Baker's Yeast Transketolase – R. A. Usmanov and G. A. Kochetov 664 772
Effects of Cations and Protons on the Membranes of Chloroplasts and Etioplasts – T. A. Reingard, S. V. Manuil'skaya, S. K. Sytnik, A. I. Polishchuk, N. A. Zaitseva, and L. K. Ostrovskaya 672 782

Volume 48, Number 5, Part 2 May, 1983

Production of Neurotoxin and Hemagglutinin of *Clostridium botulinum* Type A and Characterization of the Neurotoxin – I. D. Vinogradova, R. N. Uvarova, K. K. Ivanov, I. S. Kazdobina, T. I. Bulatova, and V. N. Mel'nikov. 677 788
Effects of 2,5-Dibromo-3-methyl-6-isopropyl-p-benzoquinone, an Analog of Ubiquinone, and SH Reagents on the Electrogenic Function of Pyrophosphatase of *Rhodospirillum rubrum* Chromatophores – A. V. Oleskin and V. D. Samuilov 685 797
Pig and Human Thymus Gangliosides – É. V. Dyatlovitskaya, E. V. Sinitsyna, Yu. V. Volgin, V. I. Skorokhod, and L. D. Bergel'son 689 802
Properties of Two Forms of Ferredoxin from *Rhodopseudomonas capsulata* – A. F. Yakunin and I. N. Gogotov. 697 811
Study of the Structuro-Functional Peculiarities of the Bacterium *Bacillus brevis* in Connection with the Accumulation of Gramicidin S in Cells – G. N. Vostroknutova, I. M. Simakova, E. F. Kharat'yan, V. G. Bulgakova, T. P. Udalova, and D. N. Ostrovskii. 704 818
Effects of the S-100 Protein on the Phosphorylation of Proteins of the Nuclei of Rat Brain and Liver Cells – V. I. Tyulenev, A. A. Kapralov, L. S. Smerchinskaya, and Ya. V. Belik. 712 827
Secondary Structure and Functional Groups of the Active Site of Glutamine Synthetase from Pea Chloroplasts – N. P. Akent'eva, N. A. Solov'eva, A. V. Pushkin, Z. G. Evstigneeva, and V. L. Kretovich. 717 833
Purification and Properties of GTP Cyclohydrolase of the Yeast *Pichia guilliermondii* – G. M. Shavlovskii, E. M. Logvinenko, and A. E. Zakal'skii 721 837

Peculiarities of the Protein Composition of the Nuclear Matrix in Certain Tumors and Cultures of Chinese Hamster Embryonic Fibroblasts — S. N. Kuz'mina, T. V. Bul'dyaeva, S. I. Polikarpova, and I. B. Zbarskii 727 844

Antibodies to p-Aminophenyl-β-D-galactopyranoside-Containing Proteins — D. M. Belen'kii and V. N. Shaptseva. 733 851

Influence of Deuteration on the Sensitivity of the Electron Transport Reactions in Chloroplasts to the Action of Gramicidin — A. A. Bulychev, M. M. Niyazova, and V. B. Turovetskii. 738 857

Modification of the Enzyme System of Ca^{2+} Transport in the Sarcoplasmic Reticulum in Lipid Peroxidation. Change in the Molecular Organization of the Lipoprotein Complex of Ca-ATPase — O. A. Azizova, A. G. Maksina, N. K. Klaan, V. A. Sukhanov, Yu. V. Arkhipenko, V. E. Kagan, Yu. A. Vladimirov, and Yu. P. Kozlov. 741 861

The Participation of Phenylalanine-p-nitroanilidase in the Degradation of Reserve Proteins of Germinating Vetch Seeds — A. D. Shutov and R. É. Polo 749 870

Volume 48, Number 6, Part 1 June, 1983

Nature of Conformational Constraints in Superhelical Nuclear DNA from Thymus Lymphocytes — V. A. Soldatenkov, I. V. Filippovich, and E. F. Romantsev. 755 883

Investigation of Functions and Location of Nucleotide-Binding Sites of CF_1-ATPase Using Dialdehyde Derivatives of ADP and ATP — S. K. Sytnik and A. N. Mal'yan 761 890

Interaction of Microsomal Cytochrome P-450 with Spin-Labeled Substrate Analogs — V. I. Popova, T. A. Gapeeva, L. M. Weiner, I. I. Gorshkova, O. A. Gromova, and V. V. Lyakhovich 767 897

Changes in Kinetic Properties of NAD Kinase from Pigeon Myocardium during Purification — E. R. Bulygina, O. G. Busygina, and V. I. Telepneva. 775 906

Animal Lipoxygenases: Change in Activity of Lipoxygenase from Reticulocytes upon Interaction with Blood Plasma Lipoproteins — V. Z. Lankin, N. T. Gordeeva, Yu. G. Osis, A. M. Vikhert, T. Schewe, and S. M. Rapoport. 782 914

Species Specificity of Immunogenic Nonhistone Proteins from Rat Thymus and Liver Chromatin — M. G. Nanazashvili, V. M. Ermekova, and S. R. Umanskii 789 922

Selective Inhibition of Mouse Liver and Heart Pyruvate Dehydrogenase by Triphosphate Esters of Thiochrome and Tetrahydrothiamine — Yu. M. Ostrovskii, S. V. Zabrodskaya, T. I. Zimatkina, and D. A. Oparin 794 928

Study of Functional Groups Involved in Nitrate Reductase Activity of Milk Xanthine Oxidase — L. I. Ananiadi, N. S. Sergeev, N. A. Kil'dibekov, N. P. L'vov, and V. L. Kretovich. 797 932

Structural Bases of Thrombin Specificity. Role of Secondary Interactions — V. K. Kibirev, V. P. Romanova, and S. B. Serebryanyi 802 937

H^+/e^- Ratio in Photosynthetic Electron Transport Chain — B. N. Ivanov, V. L. Shmeleva, and V. I. Ovchinnikova 808 944

Effect on Vasoactive Peptides of Two Thiol Proteinases from Spleen Active in Neutral Media — L. A. Lokshina, T. P. Egorova, and V. N. Orekhovich 814 951

Study of Stoichiometry of GTP Decomposition during Peptide Synthesis on Ribosomes. Stoichiometry of GTP Hydrolysis during Elongation of Polyphenylalanine on Polyuridylic Acid — D. G. Kakhniashvili, S. K. Smailov, I. N. Gogiya, and L. P. Gavrilova 821 959

Volume 48, Number 6, Part 2 June, 1983

Investigation by EPR Method of Conformational Changes in Alcohol Dehydrogenase during Interaction with Silochrome — N. V. Kharakhonycheva, G. I. Likhtenshtein, E. A. Shkileva, and M. D. Adamenkova 831 970
Biosynthesis of Ribosomal RNAs in Rat Liver Cells upon Inhibition of Protein Synthesis — G. P. Chirkov, P. Ya. Boikov, M. K. Druzhinina, and I. N. Todorov 835 975
Pathway of Synthesis of Aldehyde Factor — the Main Substrate of Luciferase — L. Yu. Popova and A. N. Shenderov 843 983
Affinity Chromatography and Properties of cGMP-Dependent Protein Kinase from Prawn Tissues — N. S. Safarov, Z. Sh. Musaev, S. N. Baba-Zade, S. T. Sadykhov, and N. Kh. Mekhtiev 850 991
Comparative Study of Effect of α-Tocopherol and Synthetic Antioxidant on Respiration and Oxidative Phosphorylation in Rat Liver Mitochondria — G. V. Donchenko, I. V. Kuz'menko, V. N. Kovalenko, and N. I. Kunitsa 856 998
Inhibition of Elastase and Kininogenase from Human Granulocytes — L. V. Platonova, O. G. Ogloblina, T. S. Paskhina, V. F. Martynov, E. I. Sorochinskaya, and L. I. Leont'eva 863 1006
DNA Polymerase γ in Loach Embryo Cells Is Located in the Mitochondria — V. S. Mikhailov, D. B. Gulyamov, A. V. Peskin, and L. S. Filatova . . 868 1012
Role of cAMP-Dependent Phosphorylation in Passive Ca^{2+} Transport by Myocardial Sarcolemma — Z. D. Vorobets, M. D. Kurskii, and S. N. Marchenko 875 1020
A New Method of Analyzing the Cationic Centers of the Na,K-ATPase System — Z. P. Kometiani and M. G. Vekua 880 1025
Methylation of Newly Formed DNA in Developing Wheat Seedlings — I. B. Kudryashova, S. A. Volkova, M. D. Kirnos, and B. F. Vanyushin 885 1031
Cellular Location of Adenylate Cyclases Stimulated by Histamine and Prostaglandin E_2 in Rat Gastric Mucosa and Their Role in Regulation of Gastric Secretion — M. M. Tairov, R. I. Bersimbaev, S. V. Argutinskaya, and R. I. Salganik 888 1035
Protein-Synthesizing Structures and Protein Synthesis in Mouse Lymphocytes — A. I. Nikolaeva and N. N. Logunova 895 1042

Volume 48, Number 7, Part 1 July, 1983

Mechanism of the Glutamate Dehydrogenase Reaction — V. R. Shatilov 905 1059
Interaction of Immobilized Plastocyanin with Cytochrome f and the Reaction Center of Photosystem I in a Reconstituted System — M. S. Khristin 911 1067
Regulation of the Number of K-Binding Sites of Na,K-ATPase by Adenosine Triphosphate — Z. Ya. Kikvidze, M. G. Vekua, and Z. P. Kometiani . . 917 1074
Do Nonequilibrium Reactions Exist in the Glucose-to-Triose Phosphate Pathway in the Liver? — Yu. G. Kaminskii 922 1080
Peculiarities of the Amino Acid Composition, Three-Dimensional Organization, and Interaction with DNA of Histones H1 from Calf Thymus and Carp Spermatozoa — S. N. Khrapunov, A. I. Dragan, A. V. Sivolob, S. N. Kadura, and G. D. Berdyshev 926 1085
Metabolic Regulation of Transcription of the Threonine Operon in *E. coli* Cells — E. V. Klyachko, S. S. Bochkanov, and R. S. Shakulov 935 1095
Multiple Forms of Glycosyltransferases in the Membrane Fractions of the Golgi Complex — N. Ts. Tsoi, N. V. Kolesnikova, and N. D. Gabriélyan 942 1103
Localization of the [^{3}H]Histamine and [^{3}H]Prostaglandin E_2 Receptors in Isolated Cells of the Rat Gastric Mucosa — R. I. Bersimbaev, M. M. Tairov, S. V. Argutinskaya, and R. I. Salganik 951 1113

Kinetics of the Inhibition of Mitochondrial Monoamine Oxidases A and B from the Rat Liver by 1-(Indolyl-3)isopropylmethyl-propargylamine — L. I. Gridneva, I. N. Dolicheva, V. Z. Gorkin, Yu. I. Smushkevich, and N. N. Suvorov. 959 1122
Inhibition of Lipid Peroxidation by Superoxide Dismutase and Ceruloplasmin — G. G. Pogosyan and R. M. Nalbandyan. 965 1129
Fibrinogen Fragment D — an Inhibitor of the Fibrinolytic Process — M. A. Rozenfel'd, L. A. Fateeva, and I. D. Gontar' 971 1135

Volume 48, Number 7, Part 2 July, 1983

Modification of the Enzyme System of Ca^{2+} Transport in the Sarcoplasmic Reticulum during Lipid Peroxidation. Damages *In Vivo* Caused by Pathological Changes — V. E. Kagan, Yu. V. Arkhipenko, F. Z. Meerson, and Yu. P. Kozlov 977 1141
State of the Energy Metabolism and Distribution of Lipids in the Rat Liver after Administration of Phenobarbital and Oil — V. N. Solov'ev, V. A. Vavilin, A. V. Panov, and V. V. Lyakhovich. 983 1149
Degradation of 18S and 28S Ribosomal RNA in the Cytoplasm of Rat Liver Cells after Inhibition of Protein Synthesis — G. P. Chirkov, P. Ya. Boikov, M. K. Druzhinina, and I. N. Todorov 990 1157
Chemical Modification of Lysine Residues in β-1,3-Glucanase from *Spisula sachalinensis* — T. G. Svetasheva, V. V. Sova, and L. A. Elyakova 996 1163
Conformational State and Functional Activity of NADPH-Dependent Cytochrome P-450 Reductase, Isolated and Incorporated into a Phospholipid Bilayer — V. Yu. Uvarov, E. D. Skotselyas, G. I. Bachmanova, and A. I. Archakov 1000 1168
Bacterial Formate Dehydrogenase. Substrate Specificity and Kinetic Mechanism of the Oxidation of S-Formylglutathione — V. I. Tishkov, A. M. Egorov, and V. O. Popov 1003 1172
A High-Potential Iron-Sulfur Protein of *Thiocapsa roseopersicina* — N. A. Zorin and I. N. Gogotov 1011 1181
Heterogeneous Molecular Forms of Phenol Oxidase from Grape Leaves — G. N. Pruidze, M. N. Zaprometov, S. V. Durmishidze, and D. F. Kintsurashvili 1017 1188
Study of the Chemical Composition of the Fe-Mo-Cofactor of Nitrogenase by a New Fluorometric Method of Analysis of Thio-Compounds — L. A. Syrtsova, E. V. Popko, G. I. Likhtenshtein, and S. Yu. Druzhinin. 1023 1195
Isolation and Some Physicochemical Properties of the New Neurospecific Protein 10-40-4 from the Human Brain — T. P. Klyushnik and G. Sh. Burbaeva 1031 1203
Mechanism of the Inhibition of Pea Chloroplast Glutamine Synthetase by Methionine Sulfoximine — N. P. Akent'eva, Z. G. Evstigneeva, A. V. Pushkin, N. A. Solov'eva, and V. L. Kretovich 1037 1209
A Low-Molecular-Weight Human Kininogen: Production of a Purified Preparation and Immunochemical Investigations — T. P. Egorova, V. V. Karpitskii, and T. S. Paskhina 1041 1214
Kinetics of the Development of a Glucocorticoid Effect in the Thymus of Adrenalectomized Rats — G. D. Muskhelishvili and V. V. Adler 1048 1221

Volume 48, Number 8, Part 1 August, 1983

Dicyclohexylcarbodiimide as an Inhibitor of Photo- and Pyrophosphate-Induced Generation of Membrane Potential in Chromatophores of Purple Bacteria — N. Ya. Pototskii and V. D. Samuilov. 1057 1235

Compartmentalization of Metabolism of Spatially Separated Amino Acid Pools of Yeast Cells — E. G. Davidova, A. P. Belov, and V. V. Rachinskii 1062 1241
Mechanisms of Calcium Transport in Depolarized Brain Synaptosomes — G. M. Kravtsov, N. I. Pokudin, P. V. Gulak, and S. N. Orlov 1069 1249
Mechanism of Action of Glycerol and Methanol on Soluble Mitochondrial ATPase — A. T. Ivashchenko, K. R. Uteulin, and T. Li 1075 1256
Modification of Enzymatic System for Ca^{2+} Transport in Sarcoplasmic Reticulum during Lipid Peroxidation. Systems for Generation and Regulation of Lipid Peroxidation in Skeletal and Heart Muscles — Yu. V. Arkhipenko, V. A. Pisarev, and V. E. Kagan 1080 1261
Effect of Insulin and Glucagon on Aldolase Metabolism in Rat Liver — V. P. Komov, N. V. Kirillova, and A. G. Bekdzhanyan 1088 1271
Regulation of Number and Function of Mitochondria after Artificial Increase in Their Mass in Fish Embryos — N. B. Abramova, V. P. Korzh, and A. A. Neifakh 1096 1279
Characteristics of Binding of NAD by Rat Brain Synaptic Membranes — A. G. Khalmuradov, P. K. Parkhomets, T. M. Kuchmerovskaya, and T. V. Chichkovskaya 1103 1287
Distribution of Elongation Factors EF-1 and EF-2 among Components of Lysate of Rabbit Reticulocytes — T. N. Vlasik, G. L. Idel'son, and L. P. Ovchinnikov 1108 1293
Kinetic Characteristics of Glutamine Synthetase from Chloroplasts of Pea Leaves — A. V. Pushkin, N. A. Solov'eva, N. P. Akent'eva, Z. G. Evstigneeva, and V. L. Kretovich 1115 1300
New Data on Biological Activity of Fragment 77-107 of Hypophyseal Somatotropin — A. A. Bulatov, T. A. Osipova, S. M. Terekhov, E. T. Sazina, and Yu. A. Pankov 1119 1305

Volume 48, Number 8, Part 2 August, 1983

Effect of Modification of Some Amino Acid Radicals on Enzymatic Activity of Glucoamylase from *Aspergillus awamori* — A. N. Savel'ev and L. M. Firsov 1125 1311
Investigation of Dynamic Organization of Electron Transport Chain in Bacterial Membranes by Method of Radiation Inactivation — M. E. Zinov'eva, A. S. Kaprel'yants, and D. N. Ostrovskii 1133 1319
Changes in Some Properties of Soluble cAMP-Dependent Protein Kinase from Rat Myocardium during Training with Physical Loads — M. I. Kalinskii and M. D. Kurskii 1138 1324
Purification and Immunochemical Characterization of Specific Membrane Protein from Human Brain — V. A. Berezin, T. I. Shapoval, and L. M. Zholud' 1142 1329
Influence of Lipids on Binding of Calmodulin to Cyclic Nucleotide Phosphodiesterase — S. E. Severin, Jr., V. I. Shvets, and V. A. Tkachuk 1150 1337
Reconstitution of Highly Purified Proton-Translocating Pyrophosphatase from *Rhodospirillum rubrum* — Yuri A. Shakhov, Pål Nyrén, and Margareta Baltscheffsky 1159 1347
Comparative Analysis of Interaction of Highly Purified Glucocorticoid–Receptor Complexes from Rat Liver with Homologous and Heterologous Cell Nuclei — G. A. Romanov, G. L. Luksha, and B. F. Vanyushin. 1163 1352
Influence of Calmodulin- and 3':5'-AMP-Dependent Protein Kinases on Calcium Transport by Sarcoplasmic Reticulum of Rabbit Myocardium under Normal Conditions and in Toxic Allergic Myocarditis — N. V. Karsanov and Z. G. Khugashvili. 1170 1359
Subtilisin-like Proteinase SSPB from *Streptomyces spheroides* Strain 35 — V. G. Kreier, G. N. Rudenskaya, N. S. Landau, S. S. Pokrovskaya, V. M. Stepanov, and N. S. Egorov 1175 1365

Isolation and *in Vitro* Translation of Polyribosomes and Template RNA Isolated from Gibberellic Acid-Treated Etiolated Dwarf Pea Seedlings — S. N. Kilev, E. V. Evtushenko, V. M. Chekurov, and N. P. Mertvetsov. 1183 1374
Some Properties of Luliberin-Hydrolyzing Peptidase from Rat Heart — V. V. Tsibezov. 1193 1384
Aminomethylol Compounds Inhibit Initiation of Synthesis of RNA Chains Beginning with Adenine Nucleotides — I. A. Protasova, V. V. Adler, and A. M. Poverennyi. 1199 1390

Volume 48, Number 9, Part 1 September, 1983

Ability of Cellulases to Degrade Crystalline Cellulose as a Result of Their Effective Adsorption on the Substrate: Experimental Confirmation and Theoretical Interpretation — A. A. Klesov, V. M. Chernoglazov, M. L. Rabinovich, M. V. Glazov, and M. D. Adamenkova. 1207 1411
Chlorophyll—Protein Complexes of Green Algae and Higher Plants. Identification of Chlorophyll-Containing Bands in Gel Using *Chlamydomonas reinhardii* Mutants — V. G. Ladygin, I. R. Fomina, K. Ya. Bil', A. A. Moskalenko, and G. N. Shirshikova 1216 1421
Effect of Clofibrate on the Polypeptide Composition of a Purified Fraction of Rat Liver Peroxisomes — V. D. Antonenkov, S. V. Pirozhkov, and L. F. Panchenko. 1222 1429
Inhibitors of the Nitrate Oxidation of Hemoglobin L. Kh. Kostenko, É. G. Rozantsev, and N. M. Khizkiyaeva . . . 1229 1437
A High-Molecular-Weight Protein from Pea Leaves, Consisting of 14 Monomers — A. V. Pushkin, V. L. Tsuprun, N. A. Solov'eva, V. V. Shubin, Z. G. Evstigneeva, and V. L. Kretovich. 1233 1441
Participation of Calmodulin in the Regulation of the Plasma Membrane Electric Potential by Intracellular Calcium — S. N. Orlov and G. M. Kravtsov. 1238 1447
Differences in the Effects of Antimycin and 2-Nonyl-4-hydroxyquinoline N-Oxide on the Oxidation-Reduction of Mitochondrial Cytochromes b — V. S. Kunts, S. V. Kushnarenko, and A. A. Konstantinov. 1247 1456
Interaction of diS-C_3-(5) and Ethylrhodamine with Lymphocyte Mitochondria — L. E. Bakeeva, I. G. Derevyanchenko, G. I. Konoshenko, and E. N. Mokhova 1253 1463
Functional Coupling of Creatine Phosphokinase and Adenylate Kinase with Adenine Nucleotide Translocase and Its Role in the Regulation of Heart Mitochondrial Respiration — P. P. Dzheya, A. A. Kal'venas, A. I. Toleikis, and A. K. Prashkyavichyus. 1261 1471
Influence of 5α-Androstane-3β,18β-diol on Estradiol-17β Reception in the Pituitary Cytosol of Male and Female Rats — V. G. Degtyar' 1268 1479
Extracellular Serine Proteinase A of *Streptomyces rutgersensis* — S. V. Kaluger, V. P. Borovikova, G. I. Lavrenova, V. M. Stepanov, A. P. Shpokene, M. P. Gureeva, and A. P. Uzhkurenas. 1271 1483
Inhibition of Lipid Peroxidation in Liver Microsomes by o-Benzoquinone Derivatives — V. A. Kostyuk and E. F. Lunets 1279 1491

Volume 48, Number 9, Part 2 September, 1983

Incorporation of Certain Glycoconjugates into the Liposome Membrane and Interaction of Ganglioside-Containing Liposomes with Rat Hepatocytes *in Vitro* — V. M. Dvorkin, I. L. Galkina, and G. Ya. Vidershain. 1285 1496

Mitochondrial Nature of Newly-Formed DNA in Aging Coleoptiles of Etiolated Wheat Seedlings - M. D. Kirnos, L. E. Bakeeva, S. A. Volkova, N. I. Ganicheva, and B. F. Vanyushin. 1294 1505
Effects of Protein-Denaturing Agents on the Inhibition of Rat Liver Mitochondrial Monoamine Oxidase by Clorgyline and Deprenyl - I. S. Severina 1302 1513
Mode of Association of Proteoliposomes with a Flat Bilayer Phospholipid Membrane - I. I. Severina. 1310 1522
Isolation of Two Forms of DNA Polymerase α from Loach Roe. Physicochemical Characteristics of Isoenzymes - V. S. Mikhailov and D. B. Gulyamov 1317 1530
Circular Dichroism Spectra of Proteinase Inhibitors from Corn - A. I. Shul'mina, E. V. Sokolova, O. A. Livenskaya, and V. V. Mosolov 1324 1538
Influence of Cytochrome b_5 on the Functional Activity and Conformational State of Cytochrome P-450 - V. Yu. Uvarov, D. Vernike, G. I. Bachmanova, and A. I. Archakov 1328 1542
Investigation of the Molecular Structure and Immunochemical Properties of Highly Purified *Clostridium botulinum* Type A Hemagglutinin - L. G. Ivanova, V. A. Blagoveshchenskii, I. D. Vinogradova, V. A. Kolesnikova, G. A. Ugryumova, and G. V. Mikheeva 1334 1548
Influence of α-Tocopherol on the Superoxide Dismutase and Glutathione Lipoperoxidase Activities of Mouse Liver Cytosol and Mitochondria - V. Z. Lankin, A. K. Tikhaze, D. R. Rakita, V. D. Pomoinetskii, and A. M. Vikhert 1341 1555
Peculiarities of the Subunit Composition of H^+-ATPase from the Anaerobic Bacterium *Lactobacillus casei* - G. V. Tikhonova, S. F. Biketov, V. N. Kasho, I. A. Kozlov, E. I. Mileikovskaya, D. N. Ostrovskii, I. M. Simakova, and V. P. Skulachev. 1346 1560
Generation of a Membrane Potential by Aerobic Bacteria *Micrococcus lysodeikticus*. Correlation between Coupled and Uncoupled Respiration - V. Yu. Artsatbanov, G. V. Tikhonova, and D. N. Ostrovskii. 1354 1568

Volume 48, Number 10, Part 1 October, 1983

Synchronous DNA Synthesis in Coleoptile and Initial Leaf of Developing Etiolated Wheat **Seedlings:** Nature and Correlation of Nuclear and Mitochondrial DNA Synthesis - M. D. Kirnos, S. A. Volkova, N. N. Ganicheva, I. B. Kudryashova, and B. F. Vanyushin. 1365 1587
Heterogeneous Nature of Protein Modification upon Substitution of Their Amino Groups. Acylation of α-Chymotrypsin - L. M. Yakunitskaya, N. V. Belyakov, M. A. Samartsev, and A. I. Kestner. 1373 1596
Chlorophyll-Protein Complexes of Green Algae and Higher Plants. Heterogeneity of Chloroplast Complexes from Dimorphic Tissues of Leaves of C_4 Plants - I. R. Fomina, K. Ya. Bil', V. G. Ladygin, A. A. Moskalenko, and I. M. Magomedov 1379 1604
Purification and Some Properties of Dihydroxyacetone Kinase from the Methylotrophic Yeast *Candida boidinii* - L. V. Bystrykh and Yu. A. Trotsenko 1386 1611
Effect of Isoenzymes of Endoglucanase from *Trichoderma longibrachiatum* Differing in Strength of Adsorption on Cellulose on Soluble, Amorphous, and Crystalline Substrates: Varying Role of Adsorption Efficiency - V. M. Chernoglazov, A. A. Klesov, and O. V. Ermolova. 1391 1617
Mechanism of Catabolite Repression in *Escherichia coli*: Interaction between Transport Proteins and Adenylate Cyclase - A. G. Voloshina, N. A. Belkina, and G. I. Burd 1397 1624
Multiple Molecular Forms of Esterases from Spring Grain Aphids: Inhibitor Identification and Stereospecificity - R. I. Volkova and É. V. Titova 1405 1634

Two-Step Mechanism of Inhibition of Inorganic Pyrophosphatase by Fluoride — I. N. Smirnova and A. A. Baikov. 1414 1643
Comparative Study of Laminarinases from Marine Mollusks by Differential UV Spectrophotometry — I. Yu. Lakizova and L. A. Elyakova 1424 1654
Study of Endo-β-1,3-glucanase by Method of Affinity Inhibition — I. Yu. Lakizova, A. A. Artyukov, and L. A. Elyakova. 1430 1661

Volume 48, Number 10, Part 2 October, 1983

Use of the Spin Probe Technique for the Study of Heat-Induced Structural Changes in Human Blood Plasma Lipoproteins — O. M. Panasenko, O. A. Azizova, T. I. Torkhovskaya, V. A. Dudaev, and Yu. A. Vladimirov 1437 1667
Investigation of Protein Kinase, Phosphatase, and Protease Activities in Fraction of RNA-Binding Proteins — K. V. Kandror and A. S. Stepanov 1443 1674
Isolation of Specific Inhibitor of Microbial Serine Proteinases from Kidney Bean Seeds — V. V. Mosolov, E. L. Malova, and A. N. Cheban. 1449 1680
Heparin–Tissue Plasminogen Activator Complex and Some of Its Properties — E. E. Shimonaeva, G. S. Shimonaev, and T. S. Aleshina 1456 1687
Study of Dynein ATPase by the Method of Oxygen Isotope Exchange $H_2^{18}O \rightleftarrows [^{16}O]-P_i$ — N. V. Kuleva, N. A. Shanina, and I. E. Krasovskaya. 1459 1691
Study of Structural Organization of Adrenodoxin by the Method of Limited Proteolysis — V. L. Chashchin, L. V. Shol'kina, V. N. Lapko, V. M. Shkumatov, and A. A. Akhrem 1464 1697
Some Structural Properties of 80S Acid Protein from Pea Ribosomes — N. P. Yurina, N. A. Byzova, and M. S. Odintsova 1471 1705
Isolation and Physicochemical Characteristics of Rat Ceruloplasmin — E. T. Zakharova, V. B. Vasil'ev, V. N. Gorbunova, and M. M. Shavlovskii 1475 1709
Study of Activating Effect of 2',5'-Oligoisoadenylate on Cyclic Adenosine-3',5'-monophosphate Phosphodiesterase — V. L. Tunitskaya, A. V. Itkes, M. N. Kochetkova, and E. S. Severin 1486 1721
Binding of 3-Ketosteroid-Δ'-dehydrogenase to the Respiratory Chain of the Bacterium *Arthrobacter globiformis* — A. G. Mendentsev, A. Yu. Arinbasarova, K. A. Koshcheenko, and V. K. Akimenko 1491 1726
Interaction of Steroid Hormones with Intranuclear Acceptor Zones of Morris Hepatoma Cells — M. A. Krasil'nikov, A. V. Polotskaya, L. V. Dmitrieva, V. V. Adler, and V. S. Shapot 1497 1733
Purification and Identification of Messenger RNA for Immune (Gamma) Interferon from Human Splenocytes — L. A. Lyakh, S. N. Khil'ko, R. D. Aspetov, D. N. Nosik, A. C. Novokhatskii, and T. I. Tikhonenko 1503 1739
Inhibition of DNA Biosynthesis in Sea Urchin Embryos by 2',3'-Dideoxy-3'-aminonucleosides — M. K. Kukhanova, S. V. Koshetkova, A. A. Kraevskii, L. L. Terent'ev, and V. A. Rasskazov. 1510 1747

Volume 48, Number 11, Part 1 November, 1983

Contractile Proteins in the Soluble and Residual Chromatin of the Liver and Thymus — T. N. Priyatkina, O. R. Zarembskaya, E. M. Ivanova, M. G. Stepanov, and N. S. Panteleeva..... 1515 1763
Peculiarities of the Transcription of the Nuclear Genome at Early Stages of Liver Regeneration. The Complex Nature of the Activating Action of the Cytoplasmic "Regeneration Factor" on Transcription in Isolated Rat Liver Nuclei — S. M. Zhelyabovskaya, V. P. Sverdel, L. M. Lebedeva, L. N. Bur'yanovskii, and O. M. Platonov..... 1524 1774
Some Peculiarities of the Carbohydrate Metabolism in the Rat Liver, Determined by Limitation of Accessibility of Thiamine — Z. V. Gorbach, S. S. Maglysh, and Yu. M. Ostrovskii..... 1528 1778

Regulation of Beef Liver Glutamate Hydrogenase Activity by Coenzymes — S. V. Popova and N. P. Sugrobova..... 1532 1783
Comparative Inhibitor Analysis of the Hydroxylation of Aniline by Cytochrome p-450 in NADPH-, Cumine Hydroperoxide-, and H_2O_2-Dependent Systems — I. I. Karuzina, A. I. Varenitsa, and A. I. Archakov..... 1536 1788
Some Properties of β-Galactosidase from *Artemisia annua* L. — N. S. Magazova, R. M. Kunaeva, G. R. Baltabaeva, L. A. Ermekbaeva, and N. P. Lopatina..... 1541 1794
Release of [^{14}C]Acetylcholine from Synaptosomes under the Influence of Presynaptic Neurotoxins from Cobra and Bee Venoms — Phospholipases A_2 — Ya. T. Terletskaya, V. I. Kocherga, E. P. Kozulina, L. P. Syrovatskaya, and A. I. Miroshnikov..... 1546 1799
Role of Alkaline Phosphatase in the Regulation of the Stability of Glucose-6-phosphate Dehydrogenase of Human Cells Cultured *in Vitro* — A. A. Zgurskii, S. B. Alekseev, V. B. Mamaev, and I. G. Stepanova..... 1550 1804
Soluble and Membrane-Bound Neutral α-Glucosidase from Human Kidneys — I. S. Lukomskaya, N. A. Ushakova, and E. V. Kazlas..... 1555 1810
Effects of Proteins of the S100 Group on RNA and Protein Biosynthesis in Neurons and Glial Cells of the Rat Brain — A. B. Poletaev, N. Miani, F. Michetti, and R. Donato..... 1565 1820
Role of Arginine and Histidine Residues in the Biological Activity of Botulinic Neurotoxin Type A — I. V. — I. V. Shibaeva, V. A. Kolesnikova, I. S. Kazdobina, G. A. Ugryumova, and K. K. Ivanov..... 1569 1825
Study of the Role of the Sulfhydryl Groups of Phosphorylase Kinase — S. A. Shur, L. K. Skolysheva, and L. P. Vul'fson..... 1574 1831
Detection of Protein Tightly Bound to RNA of Radish Mosaic Virus — M. V. Sapotskii and Yu. F. Drygin..... 1580 1838
Multiple Forms of Protein Kinases from the Cytoplasm of Ehrlich Ascites Carcinoma Cells — A. A. Tokmakov and V. Yu. Vasil'ev..... 1584 1842

Volume 48, Number 11, Part 2 November, 1983

Biochemical Criteria of the Sensitivity of Mammalian Cells to Glucocorticoids — A. V. Polotskaya, V. V. Adler, M. A. Krasil'nikov, L. V. Dmitrieva, and V. S. Shapot. 1591 1849
Formation of Complexes of α-Tocopherol with Fatty Acids. The Possible Mechanism of Stabilization of Biomembranes by Vitamin E — A. N. Erin, M. M. Spirin, L. V. Tabidze, and V. E. Kagan. 1597 1855
Biosynthesis of Mevalonic Acid, Sterols, and Bile Acids from Acetyl-CoA and Malonyl-CoA in the Human Liver — A. N. Klimov, É. D. Polyakova, T. A. Klimova, É. B. Dizhe, L. E. Vasil'eva, T. V. Denisenko, and O. A. Mal'tseva 1603 1862
Influence of Neutral Salts on the Conformational State of Glycogen, Interacting with Iodine — L. N. Bobrova. 1610 1870
Study of the Reactivation of a Partially Phosphorylated Pyruvate Dehydrogenase Complex from Bovine Adrenal Glands — S. A. Strumilo. 1617 1879
Synthesis of Histones in the S- and G_2-Phases of the Mitotic Cycle of Human Diploid Fibroblasts — S. B. Alekseev, L. K. Ébralidze, P. Ya. Boikov, and L. G. Stepanova 1621 1884
Conformational Mobility and Enzymatic Activity of Ca^{2+}-ATPase of the Sarcoplasmic Reticulum — V. B. Ritov, M. K. Murzakhmetova, V. A. Livshits, V. A. Kuznetsov, O. A. Azizova, and A. G. Maksina. 1626 1890
Detection of an Immunoglobulinlike Serum Protein Possessing High Affinity Collagen — A. D. Zlatopol'skii, T. A. Zykova, and V. I. Mazurov. 1632 1897

Engl./Russ.

Effects of Fatty Acids on the Regulation by Calmodulin of Adenylate Cyclase from the Brain Striatal System — S. E. Severin, Jr., V. I. Shvets, G. N. Baldenkov, and V. A. Tkachuk 1639 1906
Probable Causes of the Decrease in the Proliferative Activity of the Rat Thymus after a Single Injection of Glucocorticoids — G. D. Muskhelishvili, V. V. Adlev, and V. S. Shapot. 1646 1914
Accumulation of Cholesterol in the Membranes in *Acholeplasma laidlawii* in the Stationary Phase of Growth in the Culture — A. B. Kapitanov, V. G. Ladygina, A. I. Mukhankin, V. F. Ivanova, G. I. Klebanov, and S. N. Kulakova 1652 1921
Investigation of a Free Radical Compound from Cells of the Bacterium *Micrococcus lysodeikticus* — V. I. Binyukov, A. E. Lordkipanidze, and D. N. Ostrovskii 1657 1927

Volume 48, Number 12, Part 1 December, 1983

Computer Bank of Amino Acid Sequences of Protein Hormones. Comparative Sequence Analysis in Proopiomelanocortin, Proenkephalin, and Prodynorphin Group: Detection of Fourphin, the Fourth Repeating Peptide in Prodynorphin — V. I. Pozdnyakov and Yu. A. Pankov 1663 1939
Influence of Valinomycin and Dicyclohexylcarbodiimide on Stoichiometry of Coupling of Proton and Electron Transport in Chloroplasts — B. N. Ivanov, V. I. Ovchinnikova, and V. L. Shmeleva 1677 1954
Formation of Superoxide Radicals in Skeletal Muscle Mitochondria — V. V. Koshkin 1685 1965
Mechanism of Postsynthetic Modification of Glucose-6-phosphate Dehydrogenase in Cultured Human Cells — A. A. Zgurskii, S. B. Alekseev, L. F. Tarasov, V. B. Mamaev, and L. G. Stepanova 1689 1970
Kinetic Characteristics of Translation in Rat Liver Mitochondria Incubated under Different Conditions — Ya. M. Rabinovich 1694 1977
Isolation and Characterization of Individual $tRNA^{Leu}_{1,2,4}$ from Cow Mammary Gland — M. A. Tukalo, I. G. Vasil'eva, G. V. Turkovskaya, A. V. El'skaya, and G. Kh. Matsuka 1700 1984
Content, Intensity of Metabolism, and Metabolic Interrelationships of Phospholipids and Glycolipids in Various Tissues during Experimental Diabetes — T. S. Saatov, É. I. Isaev, M. Zh. Érgashova, N. F. Nikolaeva, and D. S. Salikhodzhaeva 1704 1988
Covalent Modification of Rabbit Skeletal Muscle Glycogen Synthetase I by 5'-Fluorosulfonylbenzoyl Derivatives of Uridine — G. A. Solov'eva, B. M. Sisse, and Yu. V. Khropov 1710 1995

Volume 48, Number 12, Part 2 December, 1983

Reconstitution of Monooxygenase System in Solution and in Immobilized Phospholipid Layer — T. Yu. Budennaya, O. V. Dobrynina, E. N. Korneva, V. G. Lazarevich, G. P. Kuznetsova, A. V. Karyakin, G. N. Bachmanova, and A. I. Archakov. 1717 2002
Animal Lipoxygenases: Activation of Lipoxygenase from Reticulocytes upon Interaction with Natural and Artificial Membranes — V. Z. Lankin, A. K. Tikhaze, N. T. Gordeeva, T. Schewe, and S. Rapoport 1723 2009
Quantitative Distribution and Partial Identification of Actin-like Protein in Rat Liver Mitochondria — A. N. Stozharov 1729 2016
Isolation from *Micrococcus* sp.n. of Homogeneous Heme-Containing Catalase and a Crystalline Protein Possessing Catalase Activity — F. E. Romantsev, V. N. Prozorovskii, and L. E. Andrianova. 1735 2023
3-Hydroxybutyrate Dehydrogenase in Rat and Chicken Liver Mitochondria — V. I. Fisinin, A. G. Biryukov, and K. F. Shol'ts 1739 2028

Informosome Production in Maturing Amphibian Oocytes
— A. S. Stepanov, S. M. Elizarov, and P. E. Felgenhauer 1746 2035
Possible Involvement of Free-Radical Lipid Intermediate in Hydroxylation of Polycyclic Hydrocarbons — L. F. Dmitriev, N. P. Belevich, L. N. Davletshina, and I. I. Ivanov 1751 2041
Interrelationship between Existence of Boundary Lipids in Bacterial Membrane and Functioning of Respiratory Chain
— A. S. Kaprel'yants, A. D. Dergunov, and D. N. Ostrovskii. . . 1757 2049
Purification and Physicochemical Properties of Glutamate Dehydrogenases from the Unicellular Green Alga *Ankistrodesmus braunii*
— A. V. Sof'in, V. R. Shatilov, and V. L. Kretovich 1764 2056
